Profile

A full stack web developer with a strong propensity for independent learning and problem-solving. Has loved using computers since the age of ten, and first taught self to code HTML and CSS at the age of 15 purely out of self-interest. Maintains a high level of conscientious in regard to all work produced. Passionate about many intellectual hobbies, chiefly among them avid music listening, meditation, and learning anything and everything.

Experience

IT TECHNICIAN, DARMICON ELECTRIC;
    KITCHENER, ON; FT SASKATCHEWAN, AB; TORONTO, ON (REMOTE) – 2012-PRESENT

Assisted in various facets of IT support, including maintaining desktop computers, troubleshooting issues, as well as implementing and maintaining automated backup storage solution. Continue to offer support remotely.

BABYSITTER, LINDA WITT; KITCHENER, ON – 2010-2014

Kept child safe and occupied, maintaining communication with guardians. Taught child about science, and instilled an interest in computers.

Education
